

## QUALITY & ENVIRONMENTAL POLICY

The management of RLM Packaging Ltd has developed this quality & environmental policy which represents the values and beliefs with regards to the implementation of our Integrated Management System.

RLM Packaging's Organisational Context has been used in the development of this policy by considering the main external and internal factors along with the needs & expectations of all interested parties that are relevant to the company's strategic direction.

The Organisational Context is reviewed annually and links directly with this policy as well as supporting the setting of company objectives & targets to achieve the intended results of the Integrated Management System.

As a company we are committed to:

- Maintaining our Integrated Management System for Quality and Environmental controls by complying with the requirements of ISO9001 and ISO14001.
- Implementing objectives & targets relevant to both quality and environmental management along with continuous improvement of the RLM Packaging operations.
- Considering environmental aspects and implementing relevant controls to ensure that these are managed in a way to protect the environment.
- Minimising energy usage by involving all members of staff in energy conservation where practical.
- Providing quality and environmental awareness and involving all employees in our Integrated Management System improvements.

We are committed to continually improving, quality and environmental performance through active participation of all our employees and a programme of management audits and reviews to ensure its on-going effectiveness.

Our Policy is communicated to our employees and other interested parties on request. A copy is also available on our website.
